

# WOW®

*Imagine • Create • Inspire*

The Montana World of WearableArt® (WOW®) Awards Show is an extravaganza that twists conventional perceptions of both art and fashion and weaves them into a two-hour performance that has been described as, "Mardi Gras meets Haute Couture at a Peter Gabriel concert directed by Salvador Dali". Breathtaking works of art are designed for the moving body, then individually choreographed into an extraordinary theatrical show entwined with every facet of performance: music, dance, lighting, drama and comedy.
